## Water Damage Information

The Monroe County Emergency Management Agency advised the village to have citizens to call 2-1-1 to report damage to their property from the recent heavy rainfall. United Way keeps stats of what occurred and submits it to the state and federal level. If you had ground water, sewage water, or floodwater damage your property recently, please call 2-1-1. If enough people in the county report such losses government help may be available to residents.
