March 23, 2017

To: Residents of Hecker

Reliable Sanitation Service, Inc. is implementing a new Blue Lid Recycling Cart System replacing your current smaller Recycling Bins. All Hecker residents will have a Blue Lid Recycling Cart and a Black Lid Trash Cart.

NOTE: Most Hecker residents currently have a Blue Lid Cart that initially was used for trash, but will now be used solely for recycling. A Black Lid Cart will be delivered to those residents to be used solely for trash. If a Hecker resident currently has a Black Lid Cart, it will continue to be used for trash. Those residents will receive a Blue Lid Cart for recycling.

You may start using the Carts immediately as you receive them. Residents are welcome to keep the 18-gallon Bins, or you can dispose of them by setting them out with the trash on Thursday.

We ask that the Carts be at least 3 feet apart and away from cars, mailboxes, fences, basketball hoops, etc. The pickup day will remain the same (Thursday). Please have both Carts out by 6 a.m.

REMINDER: All Blue Lid Carts will be for Recycling

All Black Lid Carts will be for Trash

Sincerely,

Timothy L. Scheibe
